

CONTROLLED WASTE TRANSFER NOTE FOR EMPTY CONTAINERS AND CARDBOARD v2.0

1 Background

Fisher Scientific collect used customer packaging as part of a re-use and recycling service.

Please note that any returned packaging is “Waste” under environmental laws and must be collected, transported and managed in a compliant manner.

The purpose of this document is to provide you with information to help ensure that this is done properly.

2 Instructions for the Customer

In order for us to be able to collect material, you will need to do the following:

- Prepare the material for collection and transportation; and
 - Complete a Waste Transfer Notice
- (a) Preparing the Materials for Collection:
- We can only collect bottles for products from the following brands:
 - Fisher Chemical
 - Fisher BioReagents
 - Acros Organics
 - Maybridge
 - All bottles must be washed or cleaned by an approved method that does not produce fugitive emissions prior to collection. Unwashed products will be rejected.
 - **All caps must be off**
 - Bottles must be in a safe condition for transportation – i.e. must not be broken or cracked. The original labels attached to bottles or cartons must be **covered completely** (example: painted over)

- (b) Completing a Waste Transfer Note:
- You will need to complete 3 identical copies of the Waste Transfer Note (Copies 1 & 2 for the driver and copy 3 retain for your records for 2 years).
 - You will need to create a Transfer Note number. This reference number must be unique and should be created for each new Transfer Note. The reference number may be created by a combination of your initials, date and a sequential number sequence e.g. CS/24042010/01, CS/24042010/02 etc. The number should be entered in the box in the top right of the Transfer Note.
 - Complete Section 1 of the Waste Transfer Note with your details.
 - Complete Section 2 of the Waste Transfer Note with the details of the material to be collected.
 - The Waste Transfer Notes must be signed by you. Please note the declaration being given.
 - Give all copies of the Waste Transfer Note to the driver collecting the waste.

Please note that our drivers are obliged to comply with the law and will refuse to collect any materials that do not comply with the above conditions.

3 Instructions for the Collecting Driver

- (a) Check that the Transfer Note Number and Section 1 and 2 of the Transfer Note have been completed and the description of container/packaging in Section 2 matches the material to be collected for all copies.
- (b) The driver should complete the Transfer Note as follows:
- If you are a **Fisher Scientific driver**, complete Section 4 of the Transfer Note.
 - If you are a **Third Party Carrier**, complete Section 3 of the Transfer Note ensuring you enter your company's waste carrier license number.
- (c) Pass one copy of the now completed Transfer Note back to the customer/person responsible for the waste for retention.

(Purple italic text in the example, for additional guidance for third part carrier)

(Fisher Scientific Driver – See information pack, retain 1 copy within RSD and 1 copy to be handed into the waste centre for acceptance)
